-

TECHNICAL SKILLS

- **Programming Languages** : Python, Basics of C,C++
 - **Front-End development** : HTML ,CSS ,JavaScript
 - **BI Tools** : Cognos BI
 - **Version control** : Git ,GitHub
 - **Frameworks** :Basic knowledge of JavaScript
 - **Cloud** :AWS(EC2,SNAPSHOT,EXTRA VOLUME STORAGE)
 - **Soft Skills** :Problem-Solving ,Teamwork ,Communication
-

EDUCATION

- **B. Tech in Computer Science Engineering(Data Science & Artificial Intelligence)**
Dr.MGR Educational and Research Institute, Chennai| 2023-2027
Current CGPA : 9.07
 - **12th Standard**
Vimala Matriculation Higher Secondary School
Percentage: 88%
-

PROJECTS

- **CITY-WEATHER-DATA dataset| 2025**
 - Performed business intelligence analysis on a retail dataset by creating a data module in IBM Cognos Analytics and generating a Crosstab report with filtering, grouping, and sorting operations to gain actionable insights.
- **Captcha Generator| 2024**
 - Designed and implement a CAPTCHA generator using Java that generates a random, human-readable CAPTCHA image
- **Human Scream Detection and Analysis for controlling Crime Rate| 2024**
 - Implemented a Python-based system for detecting and analyzing human screams in real- time

- **Creating a website for acting driver | 2026**
 - Enhanced a responsive website for an acting driver service to showcase profiles, booking details, and contact features. Designed user-friendly pages using HTML, CSS, and basic scripting to improve customer accessibility and service visibility.
 - **Ticket Booking System | 2026**
 - Developed a **React-based Ticket Booking System** with Home, Book Ticket, and Track Booking modules, enabling dynamic user interaction, real-time booking management, and a responsive user interface.
 - **Smart Charging Alert App | 2026**
 - Built a Smart Charging Alert App that monitors battery charging status and sends intelligent alerts to prevent overcharging and improve battery health. Implemented real-time notifications, battery analytics, and user-friendly features for efficient power management.
 - **Smart AI Based Alarm App | 2026**
 - Built a Smart Alarm App with puzzle challenges, photo verification, and ghost mode features to prevent oversleeping and improve wake-up efficiency. Implemented customizable alarms and interactive tasks with a clean, user-friendly interface.
-

INTERNSHIP

- **Web Development Intern – Cognifyz Technologies**
 - Developed 5+ responsive web pages using HTML, CSS, and JavaScript, improving user accessibility and reducing page load time by 30%
 - **Python with Data Science – Code Bind Technologies**
 - Completed a Python for Data Science internship at Code Bind Technologies, gaining hands-on experience in data analysis and machine learning fundamentals.
-

CERTIFICATIONS

- **IBM Java Certificate | 2024**
- **AWS cloud computing training-Advantage pro (60 hours)**
- **NPTEL-Mobile Virtual Reality & AI**
- **Introduction of Artificial Intelligence-Infosys springboard**
- **Basics of Python-Infosys springboard**
- **IBM Introduction to cloud**
- **IBM Business Intelligence**
- **Web development Internship**
- **Python with Data Science Internship**
- **Project completion certificate-Python with data science (face detection)**
- **AI Workshop**
- **AI & AI tools Workshop**
- **Implant Training -Python with data science**
- **Corporate Training Test -Code bind**
